

## Job Seekers – Career Planning and Salary Information

JSI is a leading provider of salary data to job seekers. Within the realm of vendors for career planning information, JSI is unique in that we focus exclusively on information that is financially beneficial to students and job seekers. While we do not diminish the importance of quality of life issues, our focus is on the data that will help people to make more money in careers with greater longevity. Our data has proven its value and accuracy as more than 1,000 university career centers rely every day upon JSI's salary data and information relating to labor economics.

We offer you salary and career planning information at no charge. Our job seekers business is sustained through the advertisements on these pages. Please take full advantage of the 3 programs we offer as each delivers unique data which is designed to provide you with a tangible perspective of where the best occupational opportunities exist.

**[Salary Calculator](#)**- Reliable data in an easy to use program is why our salary calculator is a standard tool for career centers and career planners every day.

**[College Majors Calculator](#)**- This is the single most important program any aspiring college student or parent will encounter. Your education will be very expensive. Lost earnings opportunities can total in the millions of dollars. This program will help you to select a college major that leads to a sustainable career with a real wage. Allocate sufficient time to use the program and really understand the data.

**[Wage & Employment Trends](#)**- Analyze 8 years of wage and employment trends for over 1,000 occupations. No one can predict the future with a high level of certainty. What we can do is tell you exactly what has happened for the past 8 years in terms of occupational growth and wages.

Sources of data: JSI derives proprietary, raw survey data from the following entities: U. S. Federal Reserve, U. S. Department of Labor, U. S. Bureau of Labor Statistics, U. S. Census Bureau, U. S. Equal Employment Opportunity Commission, U. S. Bureau of Economic Analysis, and other sources. JSI's methods for procuring, developing and presenting salary data are protected by patents and pending patents. All rights reserved.
